

## **LEARNING OBJECTIVES**

### **DESIRED OUTCOMES**

At the end of the presentation, attendees will be able to:

- cite the current incidence and epidemiology of influenza in LA County.
- determine differences and similarities between influenza activity this season compared with recent years.
- discuss the impact of differing viral types, the effectiveness of flu vaccines, and how this influences public health policy.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with influenza and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
