

## **LEARNING OBJECTIVES**

**2-15-18**

### **DESIRED OUTCOMES**

At the end of the presentation, attendees will be able to:

- conduct a thorough history and physical of patients at risk for diabetes.
- continuously manage, monitor, and incorporate latest treatment guidelines into care for patients with diabetes to avoid complications.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with diabetes and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
