

## **LEARNING OBJECTIVES**

**3-1-18**

### **DESIRED OUTCOMES**

At the end of the presentation, attendees will be able to:

- evaluate professional medical associations' views and recommendations regarding gun violence prevention and incorporate into practice.
- provide gun violence prevention materials as clinically indicated.
- frame gun violence prevention as a public health epidemic with public health approaches.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with gun violence and/or cultural disparities in gun violence.
