

## **LEARNING OBJECTIVES**

**4-18-19**

### **DESIRED OUTCOMES**

At the end of the presentation, attendees will be able to:

- describe “breast implant illness”, recognize its signs and symptoms, and determine who is at risk..
- evaluate possible toxicity of implanted silicone and the FDA’s recently released advisories.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with breast implant illness and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens
