

## **LEARNING OBJECTIVES**

**5-1-18**

### **DESIRED OUTCOMES**

At the end of the presentation, attendees will be able to:

- evaluate evidence for the use of dietary interventions in children with neurological disorders.
- advise patients and families on the use of appropriate interventions for neurological disorders.
- explore current treatment strategies for children with neurological disorders.
- discuss cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with childhood neurological disorders and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens
