

LEARNING OBJECTIVES

5-14-19

DESIRED OUTCOMES

At the end of the presentation, attendees will be able to:

- determine current best practice in the diagnosis and treatment of stroke patients.
- evaluate evidence for the prevention and secondary prevention of stroke and incorporate best practice guidelines into practice.
- discuss what's on the horizon for optimum care of the stroke patient.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with stroke and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens
