

LEARNING OBJECTIVES

5-17-18

DESIRED OUTCOMES

At the end of the presentation, attendees will be able to:

- determine the signs and symptoms and most likely scenario leading to traumatic brain injury (TBI)
- determine the appropriate work-up for the diagnosis of TBI.
- appropriately manage TBI, and implement a plan for assessment, diagnosis, and long-term follow-up.
- identify cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with TBI and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
