

LEARNING OBJECTIVES

5-19-20

DESIRED OUTCOMES: At the end of the activity, attendees will be able to:

- list the COVID-19 clinical trials currently available in Providence Southern California ministries.
- evaluate preliminary results from COVID-19 clinical trials locally and nationally.
- refer patients to COVID-19 clinical trials where appropriate.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with COVID-19 treatment and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
