

## **LEARNING OBJECTIVES**

**6-7-18**

### **DESIRED OUTCOMES**

At the end of the presentation, attendees will be able to:

- conduct a thorough history and examination of the patient with a foot or ankle pain, order appropriate imaging, and make the differential diagnosis.
- appropriately treat foot and ankle pain and know when to refer.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with foot and ankle pain and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
