

LEARNING OBJECTIVES

6-15-17

DESIRED OUTCOMES

At the end of the presentation, attendees will be able to:

- describe current findings on the etiology and pathophysiology of MS.
- recognize signs and symptoms of MS, conduct an appropriate work-up, and make the differential diagnosis.
- assess and manage patients with relapsing-remitting MS (RRMS), secondary progressive MS (SPMS), and primary progressive MS.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with MS and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
