

LEARNING OBJECTIVES

6-20-17

DESIRED OUTCOMES

At the end of the presentation, attendees will be able to:

- incorporate basic elements of “diabetes 101” when approaching the hospitalized diabetic patient.
- differentiate new diabetes medications and incorporate more complex management during hospitalization of the diabetic patient.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with diabetes and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens
