

LEARNING OBJECTIVES

10-10-17

DESIRED OUTCOMES

At the end of the presentation, attendees will be able to:

- describe the adolescent and young adult (AYA) cancer population and how their needs differ from those of young children and adult cancer survivors.
- describe strategies to meet the medical and psychosocial needs of AYA cancer survivors.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with AYA cancer and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
