

## **LEARNING OBJECTIVES**

**10-24-17**

### **DESIRED OUTCOMES**

At the end of the presentation, attendees will be able to:

- interpret imaging and pathology studies in the diagnosis of breast cancer.
- appropriately stage breast cancer according to the latest TNM staging system.
- appropriately treat breast cancer according to the latest evidence-based guidelines and based on the three biologic subgroups.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with breast cancer and/or cultural disparities in access to genetic screening.
