

LEARNING OBJECTIVES

11-12-19

DESIRED OUTCOMES

At the end of the presentation, attendees will be able to:

- determine the risk of stroke and intracerebral hemorrhage (ICH) after initial ICH.
- evaluate therapies for prevention of secondary stroke and ICH including the following:
 - Blood Pressure
 - Antithrombosis
 - Cholesterol
 - Lifestyle
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with stroke and ICH and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
