

LEARNING OBJECTIVES

11-21-19

DESIRED OUTCOMES

At the end of the presentation, attendees will be able to:

- recognize signs and symptoms of tinnitus, conduct a thorough workup, including imaging, and make the differential diagnosis.
- determine indications and patient selection for clinical management and treatment of tinnitus.
- prepare to assess cultural diversity issues in risk, incidence, prevalence, disease burden, or mortality associated with tinnitus and/or cultural disparities in access, diagnosis at more advanced stages, or less adherence to treatment regimens.
